

## Product technical sheet

# ROBINIA RB1337

2+

1 kids

9,1 m<sup>2</sup>

## Material specification

- Construction made of Robinia - very durable acacia wood with a diameter of ~ 18 cm without sharp edges, resistant to weather conditions,
- Moving elements made of durable HDPE or HPL plate, resistant to weather conditions,
- Steel ropes in polypropylene braid, connected with durable aluminum, stainless steel and/or plastic elements,
- Calibrated stainless steel chains, preventing fingers entrapment,
- Screws covered with plastic caps and/or stainless steel screws,

**Facilitating disability**

easy access

**Intellectual development**

manipulation

## Product data

|                                |              |
|--------------------------------|--------------|
| Length                         | 40 cm        |
| Width                          | 25 cm        |
| Total height                   | 100 cm       |
| Age group                      | 2+ years     |
| Number of users                | 1 kids       |
| Safety zone                    | 9,1 m2       |
| Free fall height               | < 60 cm      |
| In accordance with norm EN     | 1176-1:2017  |
| Weight of the heaviest part    | 34 kg        |
| Dimensions of the largest part | 156x18x18 cm |
| Availability of spare parts    | YES          |

Data is subject to change without prior notice.

## Additional information

- equipment adapted for the disabled; intended for public playgrounds;
- equipment has a certificate issued by an accredited entity or a declaration of conformity;
- no sharp edges or chinks that would pose a danger of jimmie the head, fingers or any other body parts;
- anchoring on flat surface, 80/70/60 cm deep;
- render is for reference only, the actual appearance of the equipment and its color may vary;

## Guarantee

- |                                                                                                  |                                                                                                             |                                                                                                                             |                                                                                                                                                                                         |
|--------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p><b>30</b> 30 year guarantee - Structural strength of steel and stainless steel components</p> | <p><b>15</b> 15 year guarantee - Structural failure of steel and stainless steel, for dynamic equipment</p> | <p><b>10</b> 10 year guarantee - Structural failure of high density polyethylene and high pressure laminates components</p> | <p><b>5</b> 5 year guarantee - Corrosion of stainless steel and hot dip galvanized and powder coated components; against bark beetles and rot in case of wooden structural elements</p> |
